

Annexure A. Evaluation Form for Peer Review

Name of the student: (to be reviewed)	Arnav Jain	Roll no. of the student:	102203979
<i>This form has to be submitted by the student whose roll no. will be mentioned in the box above. Handover this to the panel at the time of final presentation.</i>			
Title of the project:	Agent Eval		
Name of the company:	Eli Lilly and Company		
Project report (Tick the appropriate)	Excellent ☒	Good	Average
Project poster (Tick the appropriate)	Excellent ☒	Good	Average
Project video (Tick the appropriate)	Excellent ☒	Good	Average
Rate the work done	0 – 10 points	(Provide rating here) →	10
Give marks to the student on the basis of the overall performance	0 -5 marks	(Provide marks here) →	5
Abstract of the project (max. 100 words): The project implements an SDK for evaluating agentic AI outputs using an LLM as judge approach. It uses a three agent pipeline with governance evaluators across five pillars, multi model consensus, and a self contained HTML report. The project demonstrates a practical industry solution developed through requirement analysis, proof of concept validation, and production implementation.			
Mention three strengths of the work done: 1. The project addresses a real evaluation gap in agentic AI systems within an enterprise environment. 2. The work goes beyond a simple evaluation library and includes architecture design, technology evaluation, and custom implementation. 3. The solution integrates well with existing infrastructure, reducing cost while maintaining strong evaluation capabilities.			
Provide some useful recommendations (It may be some improvements, some suggestions to further raise the quality of the project): 1. Extend evaluation support to multi modal agent outputs alongside text based outputs. 2. Add persistent evaluation history and cross run comparison for longitudinal quality tracking. 3. Explore continuous integration gating for automated evaluation of agentic features.			
Name of the evaluator student:	Hemanshu Mandhana	Roll no. of the evaluator student:	102217126
Signature of the Evaluator student:
